

2022 Fledermaus

Probably our most iconic wine, the Fledermaus (German for "bat"), is a single vineyard wine made of the variety Schwarzriesling, also known under the name Pinot Meunier. From the beginning on it was always the idea to neither make it classic red nor sparkling white but let it go through a carbonic maceration for the glou-glou style we love. 2022 developed a beautiful reduction that goes extremely well with it.

The vineyard is surrounded by the town, a habitat of nature providing 15 different species of bats space to hunt. When we learned about that we built a little project around it and since then have been receiving and collecting guano for our compost work.

Variety	Schwarzriesling
Origin	Kitzingen
Soil	Limestone
Altitude	205m
Orientation	West
Age of vines	Planted in 1988
Vineyard size	0,74 ha
Training system	Guyot
Yield	31 hl/ha
Harvest	2 September 2022
Vinification	Carbonic maceration with whole bunches covered with a layer of destemmed, pressed after 6 days
Ageing	Stainless steel
Bottling	October 2023
Alcohol	11,5 %
Acids	5,6 g/l
Residual sugar	0 g/l
Natural SO2	10 mg/l
