

2022 Von Hexen & Feen

A formerly wild orchard close to the winery was made accessible and pruned by our friend Krischan who runs [a regional, organic cooperative](#). Krischan makes wine in our cellar and in return we get the fruit from this dreamy piece of land. The traditional mix of cider apples includes Bohnapfel (a tannic, aromatic variety), Lohrer Rambur and Winterrambur (rather mild and floral), Kaiser Wilhelm (acidic and bright) and the beautiful Goldpamäne (very savory). Everything crushed and pressed in the winery, bottled with 7g/l residual sugar to finish fermentation in the bottle.

Varieties	Bohnapfel, Lohrer Rambur, Winterrambur, Kaiser Wilhelm, Goldpamäne
Origin	Kitzingen
Soil	Limestone
Altitude	205m
Orientation	South
Age of trees	Early 20th century
Orchard size	1,22 ha
Yield	10 hl/ha
