

2024 BRUTAL!!! Riesling

Our third BRUTAL!!! comes from the hill where the vines grow on the same limestone as the Heimat, the Fledermaus, the Weinschwärmer and the Siebenschläfer. 2024 was a year of spring frost. The few survivors were just enough to fill a Halbstück – the traditional 600l barrel.

Frost does that sometimes: what little remains is extraordinary. We pressed whole bunches and fermented the juice in the barrel, where the wine aged on the full lees until it was bottled in April 2026.
